THINKING: INTELLIGENCE AND CREATIVITY

Intelligence and creativity are cognitive processes we use every day.

Have you every wondered:

- How psychologists measure IQ and intelligence? (Or maybe how the two differ?)
- What real-world factors IQ predicts?
- What distinguishes creative thinking states from other cognitive states?
- What personality traits are characteristic of creative individuals?
- What we have learned about creative genius?

If you have, consider joining us in Psy2180!
